Vegetables: Full/Partial Share each week.
Nutrient-dense produce has the color, texture, and taste that only comes fresh-picked from local farms. We avoid synthetic fertilizers and pesticides.

Eggs: Every other week. Eggs have deeply colored yolks from pasture raised hens.

Raw Dairy Products: Order by Friday each week. Grazed on organic pastures, Dutch Belted cows produce rich, creamy milk filled with flavor and nutrients.

Raw Goat Milk: Order by Friday each week. Delicious milk from goats that eat from a smorgasbord of saplings, shrubs, wild flowers, and grasses.

Chicken: 8 chickens delivered at intervals and one Thanksgiving turkey.

After the brooder stage, birds live in pens moved to fresh grass daily. Poultry is hand processed and is far superior in flavor and texture to factory farm birds.

Pork: One large delivery, packaged and frozen. Pigs receive grain, grass, and fresh air. This produces pork with a succulent taste: chops, ribs, sausage, ham, and bacon. We have pork available throughout the year.

Grassfed Beef: One large delivery in July, packaged and frozen. Grazing cattle yield a beef with fat yellow in color, which signifies increased nutrients and flavor. Includes steaks, roast, and burgers.

Lamb: One delivery in September, packaged and frozen. Our heritage lambs, raised in a natural and humane environment, are fed primarily grass and supplemented with hay and GMO-free grain.

Honey: 1.5 pound pint jar
Unprocessed, unfiltered, and unpasteurized wildflower honey.

Our products are raised without hormones or antibiotics.
